

PSA

Lettre de motivation

Pour stage de fin de 2ème année

JAMAL Meriam
2019-2020

I am writing in response to the internship opportunity available on your website, at this time I am pursuing my engineering degree at ENSIAS, second year. Within this program, I am focusing my studies on embedded systems. Therefore I am very interested in the identification, industrial project led by your organization in Casablanca.

Taking into consideration my studies and the projects I made, I believe I have all the skills and experience needed for this internship in PSA, through my studies, I have learned many relevant skills such as teamwork, leadership and project management.

These skills are important in your company, and therefore I believe you will perceive them as valuable plus to your experienced team. In the other hand, internship with you will provide me an opportunity to gain further experience and upgrade my skills and knowledge. Finally, i see that the combination of my skills, experience and knowledge suits your expectation regarding the profile of the internship for advertised position. Since I only have summer free, I prefer to have my internship in that period.

Thank you for your consideration.

Yours sincerely,
JAMAL Meriam.
